The key to creativity

"Imagination is more important than knowledge. Knowledge is limited. Imagination encircles the world."

-- Albert Einstein

Do you know the key to creativity? It is the SEED.

Our minds love to associate one thing to another. But as we get stuck in very fixed patterns of thinking, we think of fewer and fewer connections. We are ruled by habits, associations and automatic responses. So we must stimulate our thinking with lots of

different seeds to chart new paths in our brains.

"Just as our eyes need light in order to see, our minds need ideas in order to conceive."

-- Napoleon Hill

Till the time we don't think, we don't achieve. We don't achieve till we don't do anything creative. We don't become creative till we don't use our creative thinking.

What have you been thinking lately?

Do you know? We get so accustomed to our thoughts that we lose awareness of them. We don't see how they are stuck in old habitual patterns, most of which don't serve us.

How to become creative?

We can become creative when we focus, focus on the present moment, focus on the mind when there are no worries of the future and there are no baggages of the past, when the mind is free from all the confusions and mind is clutterfree, that's the time we can become creative thinkers.

"Anyone can look for fashion in a boutique or history in a museum. The creative explorer looks for history in a hardware store and fashion in an airport."

-- Robert Wieder

Creativity is in nature, creativity is there in you, creativity is the SEED of IMAGINATION.

"It is not the answer that enlightens, but the question."

-- Decouvertes

"The man who has no imagination has no wings."

-- Muhammad Ali

Imagination is a tool of the soul. Our imagination gives us the opportunity to 'try on' new qualities and perspectives in our life. Through imagination, we can explore our past, problems, patterns, processes, plans, perceptions, principles, passions and purpose to uncover new possibilities.

Without imagination, we stay stuck in the realm of the material, the past, the superficial and the literal. We remain one-tracked, instinctual and one-dimensional.

Our imagination comes from the soul, subconscious and senses. Only through our imagination can we become multidimensional, experience more love, create more beauty, manifest more results, change our conditions, rewrite the past, and connect with divinity, purpose and others.

"You see things; and you say, 'Why?' But I dream things that never were; and I say, 'Why not?'"

-- George Bernard Shaw

Why not????

Let's create solutions to all our problems.....

Let's create solutions to all our financial challenges...

Let's create solutions to all our financial lack...

Let's create solutions to all our financial difficulties..

Let's create solutions to all our relationship challenges...

Let's create solutions to all disharmony with our own selves..

Let's create solutions to all disharmony with any human being...

Let's create solutions to all our financial pains...

Let's create solutions to our health problems....

Let's create solutions to our challenging situations....

Love you all
