## Try to give up

Are you a person who has fixed views that only your way is the right way? Or are you a person who is always proved wrong by others and you don't have your true powers in your hand? When you are right about something, definitely others are wrong about it? And you only know how to go about taking control on it, so there is a lot to do with perfection and taking control in your own hand. But obvious you would have some irritations, frustrations and anger with the people and work done by people in your environment? And when you are wrong about something, you would have low self esteem, shame, guilt, low confidence, low self image and success is never your aim....Are you a person who is aware of what needs to be done for your self growth, personal power, happiness, freedom, decision making powers and success or are you not? If these words really relate to some corner of your heart and mind, and rings the bell, try to give up....

Try to give up control

Try to give up expectations

Try to give up false hopes

Try to give up unawareness

Try to give up building castles in the air

Try to create your own future

Try to manifest everything what you desire

1. **Letting the opinions of others control your life.** – People know your name, not your story. They've heard what you've done, but not what you've been through. So take their opinions of you with a grain of salt. In the end, it's not what others think, it's what you think about yourself that counts. Sometimes you have to do exactly what's best for you and your life, not what's best for everyone else.

2. **The shame of past failures.** – You will fail sometimes, and that's okay. The faster you accept this, the faster you can get on with being brilliant. Your past does not equal your future. Just because you failed yesterday; or all day today; or a moment ago; or for the last six months; or for the last sixteen years, doesn't have any impact on the current moment. All that matters is what you do right now.

3. **Being indecisive about what you want.** – You will never leave where you are until you decide where you would rather be. It's all about finding and pursuing your

passion. Neglecting passion blocks creative flow. When you're passionate, you're energized. Likewise, when you lack passion, your energy is low and unproductive. Energy is everything when it comes to being successful. Make a decision to figure out what you want, and then pursue it passionately.

4. **Procrastinating on the goals that matter to you.** – There are two primary choices in life: to accept conditions as they exist, or accept the responsibility for changing them. Follow your intuition. Don't give up trying to do what you really want to do. When there is love and inspiration, you can't go wrong. And whatever it is you want to do, do it now. There are only so many tomorrows. Trust me, in a year from now, you will wish you had started today.
5. **Choosing to do nothing.** – You don't get to choose how you are going to die, or when. You can only decide how you are going to live, right now. Every day is a new chance to choose. Choose to change your perspective. Choose to flip the switch in your mind from negative to positive. Choose to turn on the light and stop fretting about with insecurity and doubt. Choose to do work that you are proud of. Choose to see the best in others, and to show your best to others. Choose to truly LIVE, right now.
6. **Your need to be right.** – If you keep on saying you're right, even if you are right now, eventually you will be wrong. Aim for success, but never give up your right to be wrong. Because when you do, you will also lose your ability to learn new things and move forward with your life.
7. **Running from problems that should be fixed.** – We make life harder than it has to be. The difficulties started when... conversations became texting, feelings became subliminal, sex became a game, the word 'love' fell out of context, trust faded as honesty waned, insecurities became a way of living, jealousy became a habit, being hurt started to feel natural, and running away from it all became our solution. Stop running! Face these issues, fix the problems, communicate, appreciate, forgive and LOVE the people in your life who deserve it.
8. **Making excuses rather than decisions.** – Life is a continuous exercise in creative problem solving. A mistake doesn't become a failure until you refuse to correct it. Thus, most long-term failures are the outcome of people who make excuses instead of decisions.

9. **Overlooking the positive points in your life.** – What you see often depends entirely on what you're looking for. Do your best and surrender the rest. When you stay stuck in regret of the life you think you should have had, you end up missing the beauty of what you do have. You will have a hard time ever being happy if you aren't thankful for the good things in your life right now.
  
10. **Not appreciating the present moment.** – We do not remember days, we remember moments. Too often we try to accomplish something big without realizing that the greatest part of life is made up of the little things. Live authentically and cherish each precious moment of your journey. Because when you finally arrive at your desired destination, I guarantee you, another journey will begin .
